PSR-DRL System Flow Diagram

| 1. Network Initialization	→	2. Data Collection & Processing	→	3. State Analysis (DRL)
6. Power Management	←	5. Energy Optimization	←	4. Action Selection (Routing/Sleep)
7. Network Update	→	8. Performance Evaluation	→	9. Policy Update

Continuous Learning Feedback

System Characteristics:

- Real-time decision making
- Adaptive learning mechanism
- Energy-aware optimization
- Scalable modular design
